

Case Study – Healthcare

Client

Barnet, Enfield and Haringey
Mental Health NHS Trust

Project Name

Cumbria Villa

Duration

51 weeks

Value

£2,500,000

Description

The works comprised of the refurbishment and extension to Cumbria Villa to create a new 15 bed ward including new build extension minor demolition and alterations, new drainage, creation of ensuite rooms, replacement of all mechanical and electrical systems and associated works.

BEHMHT is committed to providing a safe and healthy working environment for their staff, patients, and visitors. The work undertaken by Storm to open-up Cumbria Villa providing modern ensuite bedrooms, relaxed colour tones and contemporary furniture design supported those Trusts goals. The new ward design improves staff and patient safety and supports positive patient experiences with features such as a lounge room style common area, and access to an external soft exercise area.

Testimonial

Storm have been working with the Trust for several years now on numerous projects varying in value and complexity including working on wards ranging from Elderly/Dementia, Adolescent, Adult, Low and Medium Secure.

Frequently it is necessary for works to be carried out whilst wards remain occupied and I have always found Storm to be courteous, responsive, thorough and proactive without being overly 'contractual'. Their project management is excellent resulting in projects generally completing on time, within budget and with comprehensive O&M manuals. For projects of the right type, size and value Storm are "one of the first to go on the tender list"
